Americans for Prosperity Applauds West Virginia State Delegate Larry Kump -Signs No Climate Tax Pledge-

ARLINGTON, VA.—The free market grassroots group Americans for Prosperity (AFP) today applauded West Virginia State Delegate Larry Kump (52nd District) for signing the group’s “No Climate Tax Pledge.” Kump joins over [500 lawmakers and candidates](#) on the federal, state and local levels pledging to “**oppose legislation relating to climate change that includes a net increase in government revenue.**”

“The one thing elected officials should be able to agree on is that global warming shouldn’t be used as an excuse to hike taxes on citizens and businesses,” said AFP Vice President for Policy Phil Kerpen. “We encourage all of West Virginia’s elected officials and candidates for elected office to sign the pledge.”

West Virginia signers include: U.S. Representative David McKinley; and State Delegates Troy Andes, Kelli Sobonya, Linda Sumner and Jonathan Miller.

President Obama has made no secret of his support for a cap-and-trade energy tax, which would be the largest tax increase in American history. The non-partisan Congressional Budget Office scored a cap-and-trade scheme as an \$846 billion increase in federal revenue, a burden that will be borne by taxpayers and consumers for decades to come. [Analysis](#) by the Institute for Energy Research found the tax cost the nation more than 500,000 jobs by 2015 and decrease household income by over \$1,000 by 2020.

“Using the guise of climate change to transfer dollars from hard-working citizens to bureaucratic big government is unacceptable,” said Kerpen. “Regardless of their stance on global warming, this should be common ground for all of our elected officials at all levels of government.”

The pledge is available online at www.NoClimateTax.com. AFP does not endorse candidates. All elected officials and candidates are encouraged to sign the pledge and go on the record in opposition to using the climate change issue to increase taxes and grow the size of government.
